Come In and See
This Spreader

THERE isn't a tool or im-
plement on our floor that
we are more proud of
than the wonderful New
Idea Spreader. It is
a wonderful time and
labor saver--and when
used regularly, it increases
profits and farm values
in a way that can not be
duplicated by any other
farm machine.

Come in this week and
see the

NEW IDEA
The Original Wide Spreading Spreader

Then when the "Imita-
tors" show you their
machine you will under-
stand why farmers who
investigate invariably
choose the old reliable

**If You're a Young Woman

Here is Some Good Advice for you
from a Prominent Woman

Albany, N. Y.—"I will gladly
praise Dr. Pierce's Favorite Prescrip-
tion. My first test of it, over
twenty years ago, when I was a
rather delicate girl in a run-down
condition, was to change me to a
robust, happy girl full of life. About
seven years later, during mother-
hood, it again proved wonderful.
Many times since then when in
need of a tonic it has proved to be
the same wonderful builder--all
more than is claimed for it."

hood drug store and obtain Dr.

Russian Divorces Easy.

Russians who have arrived in Ge-
neva recently by way of Sweden and
Germany say a former minister of
justice, Spitzberg, has been installed
in Petrograd as "breaker of mar-
riages." He is said to be granting
from 500 to 600 divorces a week, no
investigation being necessary. All
that appears to be required is the sig-
nature of the person desiring freedom
from matrimony.

NURSE SAYS FACTS ARE JUST AMAZING

Mrs. Moran Lost Sixty Pounds
But Gets It All Back—She
Is Now Picture of Health.

"In all the years I have been nur-
sing the sick I have never known a
medicine the equal of Tanlac," said
Mrs. Sarah Moran, 123 Main street,
Ludlow, Vt.

"My own case is remarkable
enough," continued Mrs. Moran, who
is a well known professional nurse,
"to prove the merits of the medicine.
A year ago my health broke down
and I lost weight rapidly, going down
from a hundred and seventy to a hun-
dred and ten pounds. Nothing I ate
agreed with me, my nerves gave way
and I was restless night and day.

"The facts of my recovery by tak-
ing Tanlac are simply amazing. It
built me up so fast I could see the
change almost every day and it prac-
tically made me over. It gave me an
appetite, overcame my stomach trou-
ble and brought me perfect diges-
tion. My friends tell me I am the picture
of health now and I never felt bet-
ter in my life."

Tanlac is sold in Bennington by W.

REAL SNAP TO THEM

It's better to be a "have been" than
a never was.

People hate to get a reputation for
being what they really are.

A man should do everything for the
woman he loves—except marry her.

A pessimist would test with acid the
lining in every cloud to see if it's
silver.

The jilted girl used to take it to
heart; now she takes it to court in-
stead.

Never judge a woman by the color
of her hair; it is not fair to her hair-
dresser.

A woman never dresses so carefull-
ly as when she goes to see her best
enemy.

Kind hearts may be more than coro-
nets, but you'll never get a girl to
think so.

When a woman forgets an injury
she keeps forgetting that she has for-
gotten it.

A woman who can carry an umbrel-
la and look graceful can do anything
or anybody.

If a woman cannot be one man's
mistress, she is likely to become another
man's poison.

If a woman must marry a man
without brains, let her at least take
one who has manners.

A woman never sees evil in a good
man.

HERE'S A FAVORITE WITH YOUNG MEN

The big, burly, belted ulster has
made a hit with young men.

Some say it's the snap and go in
patterns and colors. Others, that
they're as comfortable as they are
warm.

Whatever the reason, they're very
popular.

We know they will interest you.

THE BEE

A bee, unladen, can fly forty miles
an hour.

A bee can carry twice its own weight
in honey.

Bees suck over 3,000,000 flowers to
gather one pound of honey.

The sting of a bee is only one-thir-
ty-second of an inch long.

The carpenter bee burrows and
builds rows of cells in solid wood.

The bee, in proportion to its size,
is thirty-five times as strong as a
horse.

The working bee lives six months,
the drone four months and the queen
four years.

Bees are rapid flyers when home-
ward bound. They have been known
to outspeed the pigeon.

The male of the honey bee comes
between the queen and the workers in
size, and is stingless.

It is the habit of bees to place their
honey in the coolest place in the hive
and the young insects in the warmest.

The "leaf-cutter" bee is a very skill-
ful artificer. So exact are the circles
she cuts that a compass will fail to
detect a fault.

POINTED PARAGRAPHS

Some mothers spare the rod and
spoil the slipper.

A man resembles a ball of twine
when he is wrapped up in himself.

Part of the world loves a lover; the
rest of the world considers him a
chump.

It's when a girl thinks a man doesn't
care for her that she begins to try to
make him.

If the husband makes a living by
gambling the wife usually has to sup-
port the family.

The marriage ceremony is frequent-
ly the final act of diplomacy previous
to a declaration of war.

Once upon a time there lived a man
who said he would rather be right than
to be president—so history says.

The average man does just as many
queer things when he isn't in love as
when he is, but they are less con-
spicuous.—Chicago Daily News.

CAUTION

It has come to the notice of the in-
surance agents of Bennington that a
Lightning Rod agent is selling the
Toledo Cable Co. lightning rods and
is selling them under the name of the
Security Lightning Rod Company.

The Toledo rod is not approved and
no reduction in rate can be had in
Vermont for its use. The genuine
Security Lightning Rods are approved
and the Vermont Mutual Fire Ins.
Co. allows a 10 per cent reduction in
the rate for their use.

FRACTIOUS BABE WELL NAMED

Wearied Parent Takes Time From
Task of Walking the Floor to
Make a Little Joke.

The scene was a bedroom in a
suburb, and a wearied parent was
promising the floor at a weird
hour of the early morning, with his
first-born in his arms. Many valu-
able endeavors to soothe the infant's
cries had been made; but the little
one was laboring under an im-
pression that things needed waking up,
and that he was the person to do it.

"It seems to me you know what you
were about," groaned Picklebury to
his wife, "when you insisted upon the
child being called 'Hugh.'"

"What has his name to do with his
fractiousness?" asked the unsuspicious
wife.

"Everything!" replied the wretched
man. "You would call him 'Hugh,' you
know, and where there's a hue there's
always a cry!"

Yale's Stone Bulldogs.

Four bulldogs in stone represent
student life at Yale. The bulldog has
been Old Eli's mascot for 101 these
many years. One of the dogs, with a
wrinkled brow, wears spectacles. He
is the student. Another bulldog, brow
not so much wrinkled, wears a foot-
ball player's helmet, a nosepiece with
its end gripped in his teeth. He is
the hero of the gridiron. Another
bulldog wears a soldier's campaign hat,
depicting what Yale men have done
in the various wars. Still another
bulldog has a cap and gown, repre-
senting the completion of the college
course. Of all the carvings found,
these are the four most interesting, al-
though there are faces representing Dr.
Hadley, and a few of his predeces-
sors.
